Information for parents and students

This booklet outlines assessment procedures being followed at Oran Park High School in **Stage 4 – Year 8**. These procedures are consistent with the General Guidelines issued by the NSW Education Standards Authority (NESA) and represent minimum requirements.

Assessment at Oran Park High School

Assessment is the broad name for the collection and evaluation of evidence of a student's learning. It is integral to teaching and learning and has multiple purposes. Assessment can enhance student engagement and motivation, particularly when it incorporates interaction with teachers, other students and a range of resources.

In alignment with the directions of the Department of Education and Training and NESA, Oran Park High School uses three forms of assessment. These three forms are:

- Assessment 'for' learning
- Assessment 'of' learning
- Assessment 'as' learning

Assessment 'of' learning

Assessment 'of' learning often takes the form of in-class tests, examinations, and assignments. Students will be provided with grades and feedback that indicate their level of achievement after each of these tasks. When students are set this type of assessment, they will be issued with a formal notification. **The majority of this booklet relates to this type of assessment.**

Assessment 'for' learning

Assessment 'for' learning reflects the idea that learning is an ongoing process, and this type of assessment allows for students to receive timely and ongoing feedback throughout their learning so that this can inform their next steps. This type of assessment usually takes place in lessons.

Assessment 'as' learning

Assessment 'as' learning encourages students to take responsibility for their learning and can also include inquiry-based approaches to learning.

How can assessment help a student's learning?

It allows:

- teachers to gather evidence about student achievement in relation to course outcomes
- students with the ability to demonstrate what they know and can do
- clarification of a student's understanding of concepts and promotes deeper understanding.

Why have school assessments?

- It allows students to be given credit for developing skills and knowledge over a period of time
- It allows for evaluation of a student's achievement in those parts of courses, such as field and practical work, which are difficult to examine formally
- It provides teachers accurate information across multiple assessment tasks, rather than a single examination result in order to allocate a grade for students per course for their ROSA.

What is the nature of assessment activities issued?

Assessment activities should:

- be valid and based on syllabus outcomes
- include criteria of learning being assessed
- enable students to demonstrate their learning in a range of different contexts
- be reliable, be free from bias and provide evidence that accurately represents a student's knowledge, understanding and skills.
- enable students and teachers to use feedback effectively and reflect on the learning process
- be inclusive and accessible to all students
- be part of an ongoing process where progress is monitored over time.

What types of tasks might be issued?

Some or all of the following forms may be issued in formal assessments:

- Oral/aural tests
- Reports
- Essays
- Research assignments
- Submitted practical work
- Field work
- Written reports
- Oral submissions (sometimes recorded)
- Practical performances
- Portfolios
- Formal examinations

It should be understood that, while certain tasks are nominated as counting towards assessment, this does not mean that other tasks completed in class do not count and so can be neglected by students. These tasks could well be, for example, practice tasks which are the basis of student learning and critical preparation for the final assessment tasks. Students who do not complete all classwork could be viewed as not having satisfactorily completed the course.

Consistency and marking of assessments

To ensure consistency in marking, teachers will:

- explain the task to students and provide opportunities to ask clarifying questions.
- discuss with other teachers and collaborate on the marking of tasks to ensure consistency in marking standards.
- provide feedback on task submissions that outlines areas of strength, areas for improvement and strategies to improve.

Students with disability

Some students with disability may require adjustments to assessment practices in order to demonstrate what they know and can do in relation to syllabus outcomes and content. The type of adjustments and support will vary according to the particular needs of the student and the requirements of the activity. Students with disability may be able to present their work in an alternative format, have fewer questions or scaffolds. The type of adjustments will depend on each individual student and their needs. This will be based on consultation between the student, their family and the school.

Life Skills

Years 7–10 courses based on Life Skills outcomes and content provide options for students with disability who cannot access the regular course outcomes, particularly students with an intellectual disability.

Assessment for students accessing Life Skills courses should provide opportunities for students to demonstrate achievement in relation to the selected outcomes. It can occur via a range of strategies and in a range of situations.

Students may achieve Life Skills outcomes either independently or with support. An assessment mark or grade is not reported for these courses.

Assessment procedures for Year 7,8 & 9

The Assessment Process:

- at commencement of each school year, students will be issued with this assessment booklet that outlines the guidelines for assessment in each course
- at the commencement of each school year, students will receive an assessment schedule and requirements for each course
- 2 weeks prior to an assessment task due date, written notification will be issued to each student (See Appendix 1)

The Assessment Notification proforma will be used for all subjects and will include:

- clear indications of the outcomes being addressed in the assessment task
- clear instructions to allow the assessment task to be understood and completed
- marking criteria that clearly states, “You will be assessed on how well you...”
- marking guidelines that state the relationship between the work submitted and the grade that will be issued
- clear submission instructions (this will include how to submit and where)
- clearly stated due date
- prompt feedback on each assessment task will be provided
- students will be required to sign registers when they receive their assessment notifications and when they submit their task

As part of the Assessment Process, students are required to:

- complete all tasks to the best of their ability
- complete and submit all tasks by the due date
- submit work that is their own and no one else’s
- following the correct procedures if they are absent for any reason when the task notification is distributed or when the assessment task is due (see below).

Course requirements

Over the four years leading up to the Stage 5 RoSA, students need to have studied the following courses:

- English - studied substantially in each of Years 7-10 with 400 hours to be completed by the end of Year 10.
- Mathematics - studied substantially in each of Years 7-10 with 400 hours to be completed by the end of Year 10.
- Science - studied substantially in each of Years 7-10 with 400 hours to be completed by the end of Year 10.
- Human Society and Its Environment- studied substantially in each of Years 7-10 with 400 hours to be completed by the end of Year 10. Included in this requirement is at least 100 hours of Australian History and 100 hours of Australian Geography.
- Creative Arts - studied for 200 hours and comprising the 100-hour courses in each of Visual Arts and Music.
- Technological and Applied Studies - studied for 200 hours and consisting of the Technology Mandatory course. At least 50 hours of the course should be devoted to learning about and using computers.
- Personal Development, Health and Physical Education - studied in each of Years 7-10 with 300 hours to be completed by the end of Year 10.
- Languages - studied for at least 100 hours, to be completed in one language over one continuous 12-month period between Years 7 and 10 but preferably in Years 7-8.

N.B. 100 hours is roughly equivalent to 5 periods per fortnight over 40 weeks.

Frequently asked questions

Q. What if a student is absent when the Assessment Notification is distributed?

It is the student's responsibility to ask the teacher for the task. Students will not be given an extension of time except where the absence is for an extended period of time and the reason is deemed acceptable by the Head Teacher.

NB: Copies of all issued Assessment Notifications can be accessed on our closed Facebook groups.

Q. What happens when students are required to sit for examinations?

Examinations or test style tasks will be undertaken on the time and date specified in the Assessment Notification. Details of what to expect in the examination will also be stated in this notification.

Q. What happens when a student is required to "hand in" an assessment?

Tasks are to be submitted as per the instructions on the Assessment Notification.

Q. What happens when a student does not submit their task by the due date?

Students who do not submit by the due date, will be recorded as a "non-submission" and a non-submission letter will be sent home. Student are required to meet with the Head Teacher of the faculty to discuss the circumstances around their non-submission and to plan for the late submission of the task. The Head Teacher will decide whether the same or an alternative task is to be completed.

Q. What happens when a student is sick or cannot attend school on the day of the assessment?

If a student has a valid reason for late submission, such as illness, then they are required to submit an Illness/Misadventure application (found on the portal) to the Head Teacher of the subject. This document is to be accompanied by a Doctor's certificate OR parent explanation. This will be reviewed by the Head Teacher and a decision made about when the student is to submit their task.

Q. What happens when a student believes that they need an extension of an assessment task?

Acceptable reasons for an extension of a task may include:

- illness supported by a medical certificate
- evidence of exceptional circumstances

This evidence along with the Application for Illness/Misadventure is to be provided to the Head Teacher of the faculty on the first day back at school. The Head Teacher will then determine if the reason is valid and decide on the submission of the task.

Q. What happens when a student's assessment is late because of technological failure?

Technological failure is not reason for an extension, students are encouraged to keep back-ups of their work. If a student is having difficulty printing they should speak to their teacher before the due date.

Q. What happens when a student submits a task that does not meet the outcomes?

If a student submits a task that does not meet the outcomes, an E grade will be awarded. If the task is deemed to be a non-serious attempt, then a negotiated resubmission date may be issued by the Head Teacher.

Q. What happens if a student submits work that is not their own?

Students must submit only work that is completed by them.

If a student in Year 8 submits the work of another person, copies from the internet or a published document without appropriate referencing they will receive a “non-submission” for the task and will be required to resubmit.

Students who knowingly allow another student to copy and submit their work may also receive a “non-submission”.

Q. What happens if a student is involved in a school organised event that prevents them from submitting their task on the due date?

Students must inform the teacher as soon as they become aware of the event and negotiate for the submission of the task.

Informing the teacher after the event will result in the student receiving a “non-submission” for this task.

Q. What happens if a student is involved in a non-school organised event that prevents them from submitting their task on the due date?

Students should provide the teacher with written supporting evidence of the event giving at least two weeks’ notice of the activity. As soon as students are aware of the activity, they must discuss this with their teacher so that arrangements for their task can be made.

Q. What if a student feels sick at school during the task?

Students must let their teacher know immediately if they are feeling unwell and the teacher will organise for them to attend sick bay. Students should then attend the doctors and submit a medical certificate to the Head Teacher on their first day back at school.

Q. What happens if the student is away on a family holiday?

The Department of Education does not encourage travel during school terms. If the travel is necessary, students must obtain an Application for Extended Leave form which must be submitted to the Principal for review.

If the application is approved, the student must liaise with the Year Adviser to identify any tasks that will be missed and to make alternative arrangements with the Head Teacher of the faculty. Parents will be contacted in regard to these arrangements prior to the leave.

These procedures will be regularly reviewed as part of our ongoing evaluation processes.

Key Word Definitions

Account	Account for: state reasons for, report on. Give an account of: narrate a series of events or transactions
Analyse	Identify components and the relationship between them; draw out and relate implications
Apply	Use, utilise, employ in a particular situation
Appreciate	Make a judgement about the value of
Assess	Make a judgement of value, quality, outcomes, results or size
Calculate	Ascertain/determine from given facts, figures or information
Clarify	Make clear or plain
Classify	Arrange or include in classes/categories
Compare	Show how things are similar or different
Construct	Make; build; put together items or arguments
Contrast	Show how things are different or opposite
Critically (analyse/evaluate)	Add a degree or level of accuracy depth, knowledge and understanding, logic, questioning, reflection and quality to (analyse/evaluate)
Deduce	Draw conclusions
Define	State meaning and identify essential qualities
Demonstrate	Show by example
Describe	Provide characteristics and features
Discuss	Identify issues and provide points for and/or against
Distinguish	Recognise or note/indicate as being distinct or different from; to note differences between
Evaluate	Make a judgement based on criteria; determine the value of
Examine	Inquire into
Explain	Relate cause and effect; make the relationships between things evident; provide why and/or how
Extract	Choose relevant and/or appropriate details
Extrapolate	Infer from what is known
Identify	Recognise and name
Interpret	Draw meaning from
Investigate	Plan, inquire into and draw conclusions about
Justify	Support an argument or conclusion
Outline	Sketch in general terms; indicate the main features of
Predict	Suggest what may happen based on available information
Propose	Put forward (for example a point of view, idea, argument, suggestion) for consideration or action
Recall	Present remembered ideas, facts or experiences
Recommend	Provide reasons in favour
Recount	Retell a series of events
Summarise	Express, concisely, the relevant details
Synthesise	Putting together various elements to make a whole

MATHEMATICS																		

Syllabus Outcomes	A student...
MAO-WM-01	Develops understanding and fluency in Mathematics through exploring and connecting mathematical concepts, choosing and applying mathematical techniques to solve problems, and communicating their thinking and reasoning coherently and clearly
MA4-INT-C-01	Compares, orders and calculates with integers to solve problems
MA4-FRC-C-01	Represents and operates with fractions, decimals and percentages to solve problems
MA4-RAT-C-01	Solves problems involving ratios and rates, and analyses distance-time graphs
MA4-ALG-C-01	Generalises number properties to operate with algebraic expressions including expansion and factorisation
MA4-IND-C-01	Operates with primes and roots, positive-integer and zero indices involving numerical bases and establishes the relevant index laws
MA4-EQU-C-01	Solves linear equations of up to 2 steps and quadratic equations of the form $ax^2 = c$
MA4-LIN-C-01	Creates and displays number patterns and finds graphical solutions to problems involving linear relationships
MA4-LEN-C-01	Applies knowledge of the perimeter of plane shapes and the circumference of circles to solve problems
MA4-PYT-C-01	Applies Pythagoras' theorem to solve problems in various contexts
MA4-ARE-C-01	Applies knowledge of area and composite area involving triangles, quadrilaterals and circles to solve problems
MA4-VOL-C-01	Applies knowledge of volume and capacity to solve problems involving right prisms and cylinders
MA4-ANG-C-01	Applies angle relationships to solve problems, including those related to transversals on sets of parallel lines
MA4-GEO-C-01	Identifies and applies the properties of triangles and quadrilaterals to solve problems
MA4-DAT-C-01	Classifies and displays data using a variety of graphical representations
MA4- DAT-C-02	Analyses simple datasets using measures of centre, range and shape of the data
MA4-PRO-C-01	Solves problems involving the probabilities of simple chance experiments

Year 7 Music (Semester 1) - Assessment Schedule

DESCRIPTION		SYLLABUS OUTCOMES											
TASK	Due Date	4.1	4.2	4.3	4.4	4.5	4.6	4.7	4.8	4.9	4.10	4.11	4.12
Task 1: <i>Introduction to music</i> Composition Task	Term 1 Week 7				X	X						X	X
Task 2: <i>The Keyboard/The Guitar</i> Performance	Term 2 Week 3	X	X	X								X	X

Year 7 Music (Semester 2) - Assessment Schedule

DESCRIPTION		SYLLABUS OUTCOMES											
TASK	Due Date	4.1	4.2	4.3	4.4	4.5	4.6	4.7	4.8	4.9	4.10	4.11	4.12
Task 1: <i>Introduction to music</i> Composition Task	Term 3 Week 7				X	X						X	X
Task 2: <i>The Keyboard/The Guitar</i> Performance	Term 4 Week 3	X	X	X								X	X

MUSIC	
Syllabus Outcomes	A student...
4.1	performs in a range of musical styles demonstrating an understanding of musical concepts
4.2	performs music using different forms of notation and different types of technology across a broad range of musical styles
4.3	performs music demonstrating solo and/or ensemble awareness
4.4	demonstrates an understanding of musical concepts through exploring, experimenting, improvising, organising, arranging and composing
4.5	notates compositions using traditional and/or non-traditional notation
4.6	experiments with different forms of technology in the composition process
4.7	demonstrates an understanding of musical concepts through listening, observing, responding, discriminating, analysing, discussing and recording musical ideas
4.8	demonstrates an understanding of musical concepts through aural identification and discussion of the features of a range of repertoire
4.9	demonstrates musical literacy through the use of notation, terminology and the reading and interpreting of scores used in the music selected for study
4.10	identifies the use of technology in the music selected for study, appropriate to the musical context
4.11	demonstrates an appreciation, tolerance and respect for the aesthetic value of music as an artform
4.12	demonstrates a developing confidence and willingness to engage in performing, composing and listening experiences

Year 7 PDHPE - Assessment Schedule

DESCRIPTION		SYLLABUS OUTCOMES										
TASK	Due Date	PD4-1	PD4-2	PD4-3	PD4-4	PD4-5	PD4-6	PD4-7	PD4-8	PD4-9	PD4-10	PD4-11
Task 1: <i>Ch-Ch-Changes</i> Written Task	Term 1 Week 6	X	X							X		X
Semester 1 Ongoing Practical Assessment <i>Fundamental movement skills, athletics, target games and gymnastics.</i> Practical Skills and Decision Making	Ongoing assessment during Term 1 and 2 throughout the topics				X	X						
Task 2: <i>Life is a Circus & R.E.S.P.E.C.T.</i> Examination	Term 4 Week 3			X			X		X	X	X	
Semester 2 Ongoing Practical Assessment <i>Invasion games and striking/fielding games.</i> Practical Skills and Decision Making	Ongoing assessment during Term 3 and 4 throughout the topics				X	X						

PDHPE	
Syllabus Outcomes	A student...
PD4-1	examines and evaluates strategies to manage current and future challenges
PD4-2	examines and demonstrates the role help-seeking strategies and behaviours play in supporting themselves and others
PD4-3	investigates effective strategies to promote inclusivity, equality and respectful relationships
PD4-4	refines, applies and transfers movement skills in a variety of dynamic physical activity contexts
PD4-5	transfers and adapts solutions to complex movement challenges
PD4-6	recognises how contextual factors influence attitudes and behaviours and proposes strategies to enhance health, safety, wellbeing and participation in physical activity
PD4-7	investigates health practices, behaviours and resources to promote health, safety, wellbeing and physically active communities
PD4-8	plans for and participates in activities that encourage health and a lifetime of physical activity
PD4-9	demonstrates self-management skills to effectively manage complex situations
PD4-10	applies and refines interpersonal skills to assist themselves and others to interact respectfully and promote inclusion in a variety of groups or contexts
PD4-11	demonstrates how movement skills and concepts can be adapted and transferred to enhance and perform movement sequences

Year 7 Science - Assessment Schedule

DESCRIPTION		SYLLABUS OUTCOMES									
TASK	Due Date	SC4-2VA	SC4-4WS	SC4-5WS	SC4-6WS	SC4-7WS	SC4-8WS	SC4-9WS	SC4-11PW	SC4-16CW	SC4-17CW
Task 1: <i>First Steps in Science</i> Application of practical skills in-class task	Term 1 Week 9		X		X	X		X			
Task 2: <i>Funhouse</i> Model and scaffold take home task	Term 2 Week 3	X		X			X	X	X		
TASK 3: <i>Scientific Method</i> Student research project - Individual practical take home task	Term 3 Week 3		X	X		X					
Task 4: <i>Fantastic beasts, Waterworld and Discovery channel</i> Yearly Examination	Term 4 Week 3					X				X	X

SCIENCE	
Syllabus Outcomes	A student...
SC4-2VA	shows a willingness to engage in finding solutions to science-related personal, social and global issues, including shaping sustainable futures
SC4-4WS	identifies questions and problems that can be tested or researched and makes predictions based on scientific knowledge.
SC4-5WS	collaboratively and individually produces a plan to investigate questions and problems.
SC4-6WS	Follows a sequence of instructions to safely undertake a range of investigation types, collaboratively and individually.
SC4-7WS	processes and analyses data from a first-hand investigation and secondary sources to identify trends, patterns and relationships, and draw conclusions.
SC4-8WS	selects and uses appropriate strategies, understanding and skills to produce creative and plausible solutions to identified problems.
SC4-9WS	presents science ideas, findings and information to a given audience using appropriate scientific language, text types and representations.
SC4-11PW	explains how scientific understanding about energy conservation, transfers and transformations is applied in systems.
SC4-16CW	describes the observed properties and behaviour of matter, using scientific models and theories about the motion and arrangement of particles.
SC4-17CW	explains how scientific understanding of, and discoveries about, the properties of elements, compounds and mixtures relate to their uses in everyday life.

Year 7 Technology Mandatory - Assessment Schedule

DESCRIPTION		SYLLABUS OUTCOMES						
TASK	Due Date	TE4-1DP	TE4-2DP	TE4-3DP	TE4-4DP	TE4-8EN	TE4-9MA	TE4-10TS
Task 1: <i>Digital technologies OR Textiles OR Engineered systems</i> Formative Assessment Activity	Ongoing assessment throughout the topics	X	X	X	X	X	X	X
Task 2: <i>Digital technologies OR Textiles OR Engineered systems</i> Portfolio and Practical Project	Ongoing assessment throughout the topics	X	X	X	X	X	X	X
Task 3: <i>Digital technologies OR Textiles OR Engineered systems</i> Formative Assessment Activity	Ongoing assessment throughout the topics	X	X	X	X	X	X	X
Task 4: <i>Digital technologies OR Textiles OR Engineered systems</i> Theory Examination	Term 4 Week 4	X	X	X	X	X	X	X

TECHNOLOGY MANDATORY	
Syllabus Outcomes	A student...
TE4-1DP	designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities
TE4-2DP	plans and manages the production of designed solutions
TE4-3DP	selects and safely applies a broad range of tools, materials and processes in the production of quality projects
TE4-4DP	designs algorithms for digital solutions and implements them in a general-purpose programming language
TE4-8EN	explains how force, motion and energy are used in engineered systems
TE4-9MA	investigates how the characteristics and properties of tools, materials and processes affect their use in designed solutions
TE4-10TS	explains how people in technology related professions contribute to society now and into the future
TE4-1DP	designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities

Year 7 Visual Arts (Semester 1) - Assessment Schedule

DESCRIPTION		SYLLABUS OUTCOMES									
TASK	Due Date	4.1	4.2	4.3	4.4	4.5	4.6	4.7	4.8	4.9	4.10
Task 1: <i>Subjective frame: Intuitive ink</i> Artmaking: Expressive portrait	Term 1 Week 4			X	X	X
